Mat running into some concerns from ECAD. Not completely sure of the full context. Stay tuned.

Marianne -- Here is the first of our two submittals to work with. As drafted, it sort of starts and ends with the "so what" aspect, so if you are wanting to cut it down, I think doing some combining of the first and third paragraphs is probably going to be the most workable way for that to happen. Let us know if you need anything more on this one.
